

# Achievement Data

We are delighted with the progress our children make at Heathfield from the very earliest stages of their education. One measure of their outcomes is our externally published data at the end of Reception and the performance they achieve in their Phonics Screening Check in Year 1.

We have high expectations of all children, including the children in mainstream with additional needs and EHCPs, and those within our specialist provisions. Please [click](#) to see our current data in more detail.

As an Infant School, we focus on developing the children's early skills in reading, writing and maths, along with ensuring the children have a wide vocabulary and are able to listen carefully, express themselves clearly and work and play happily alongside each other.

Helen Child  
Co Head Teacher
