

We take the responsibility of ensuring that our children can read fluently, while developing their love of books, very seriously.

Daily English lessons, guided reading in small groups with an adult, home/school reading journals and story times at the end of the day are used consistently across the school to support the children's reading development.

Additional Support
Children who join the school in Year 3 not yet secure in their phonic skills (linking letters to the sounds they make) receive regular additional support in small groups using the Read, Write, Inc programme.

Our Library

This is located at the heart of the schools and is a Federation resource.

It is a vibrant, colourful space that is designed to promote the children's love of reading. Colour coded reading books and a wide range of free readers are available for the children to borrow using the electronic Junior Librarian system.

The library is open every day after school.

Book Fairs

These take place twice a year in October and February and coincide with our Parents' Evenings. In 2016-17 the school was able to buy over £600 of books with the money raised.
